Professional Summary

Full-Stack Developer with over **5 years** of experience delivering high-impact software solutions across web and mobile platforms. Known for writing clean, maintainable code and bringing a user-first mindset to every project. Collaborative, adaptable, and driven by a passion for solving complex problems through thoughtful, scalable design. Consistently contributes to cross-functional teams with a strong focus on quality, performance, and long-term value.

Technical Skills

- **Frontend:** React.js, Next.js, React Native, SWIFTUI, TypeScript, Redux, HTML5, CSS3
 - **Backend:** Node.js, Express.js, Python Flask, Spring Boot, ASP.NET, PHP
 - **Mobile Development:** React Native, Swift Ui, Kotlin (Intermediate)
 - **Databases:** MySQL, MongoDB, Firestore, SQL Server, Oracle
 - **Cloud & DevOps:** AWS (Lambda, S3, DynamoDB), Firebase, Docker, Jenkins, CI/CD Pipelines, Kafka (Real-Time Data Streaming)
 - **Tools & Methodologies:** Git (GitHub, GitLab), RESTful APIs, GraphQL, Agile Methodologies
-

Professional Experience

Freelance Full-Stack Developer

Remote | 2021 – Present

- Designed and launched scalable web and mobile applications using React.js, Next.js, React Native, and Node.js
- Migrated a high-traffic project from React.js to Next.js, improving page load speed by an estimated 40% and enhancing SEO performance, resulting in a 25% increase in organic traffic.
- Developed RESTful APIs with Python Flask, PHP and ASP.NET.
- **Key Project: PaperlessTrack**
 - Built a cross-platform receipt-tracking app using React Native, Firebase and Firestore and as well as Veryfi API for receipt extraction
 - Implemented real-time analytics and receipt categorization, increasing user engagement through personalized insights.
 - Enhanced data security with Firebase Authentication, reducing unauthorized access incidents by an estimated 40%.
- **Key Project: Enterprise Management Application**

- Designed and deployed multiple enterprise management applications using ASP.NET and SQL Server.
- Integrated Oracle databases for robust data management, ensuring 99.9% uptime for critical business processes.

React Native Developer | SeniorCare App

Remote | September 2024 – November 2024

- Developed an Android application for senior care providers using React Native, improving caregiver response times through real-time updates.
- Engineered secure APIs with Spring Boot, enabling efficient client data management.
- Collaborated with UX designers to create intuitive interfaces, boosting user satisfaction.

Web Developer | Various Roles

Remote | 2016 – 2019

- Enhanced backend systems using Node.js, Express.js, ASP.NET, and SQL Server, improving application performance by an estimated 20% through optimized database queries.
- Delivered responsive web solutions with SEO best practices, increasing website traffic by an estimated 15% for 3 clients.

Projects

- **Real-Time Chat App:** Developed a scalable chat application using React Native (frontend), Node.js (backend), Kafka (real-time data streaming), and SQL Server (database).
- Implemented real-time messaging with Kafka, reducing message delivery latency by.
- **Painting Company Website:** [APZ Height Access Solutions](#)
Delivered a modern, mobile-responsive website for an Australian painting company, focusing on dynamic content and user engagement.
- **Parenting Blog:** [The Stylish Mama](#)
Built a feature-rich blogging platform using React.js and Firebase, with advanced content management and search functionalities.
- **Expense Tracking Web App:** [Paperless Track](#)
Developed a web-based tracker featuring OCR receipt scanning, analytics, and Firebase authentication.
- **Mobile Expense Tracker App:** [Available on GitHub](#)
Created an Android mobile app with category-based tracking and real-time notifications, utilizing React Native.

Education

British Columbia Institute of Technology (BCIT)

Advanced Coursework in Applied Computer Systems (Part-Time)

GPA: 3.46/4.0

Relevant Courses: Advanced Topics in Software Engineering, Mobile Applications Development Fundamentals, Software Engineering, Database Design

CDI College

Diploma in Web Development | 2021 – 2022

Kabul University

Bachelor of Science in Software Engineering | 2011 – 2014
